LITERATURE TRANSLATION INSTITUTE OF KOREA

Korean Literature as World Literature

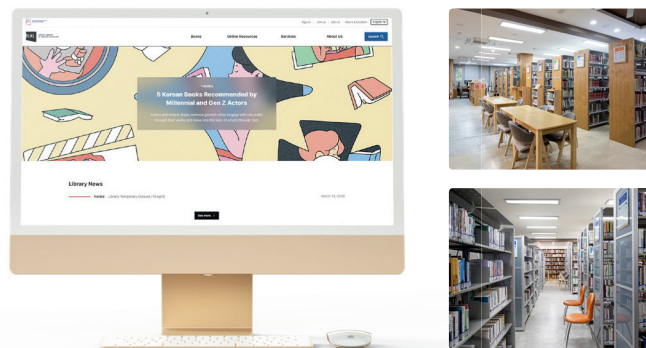

Established in 1996 for the purpose of developing and globalizing Korean literature, the Literature Translation Institute of Korea (LTI Korea) is a public organization affiliated with the Ministry of Culture, Sports and Tourism. LTI Korea's various programs include translation and publication grants, literary exchange, overseas promotion, and educational courses for translators of Korean literature as well as Korean-language arts and culture content.

LTI Korea has successfully increased the demand for Korean literature in the global market, and created a virtuous cycle whereby overseas publication of Korean literature and the expansion of international readership have led to growing media attention and numerous literary awards.

In the future, LTI Korea will continue to lead the literary Korean wave, and play a pivotal role in enhancing the status of Korean literature as world literature.

LTI Korea Library

The LTI Korea Library offers its members access to Korean books translated into over forty languages, literary journals and magazines, dictionaries, and much more. In its online form-known as the Digital Library of Korean Literature(<https://library.ltikorea.or.kr>)-the library offers a wide range of digital resources that can be easily accessed from anywhere in the world, including digital magazines, audiobooks, and e-books.
